

U. PAVITHIRA

Mobile No: +91 9884629782 Email: pavii2625@gmail.com Location: Chennai, Tamil Nadu

LinkedIn: www.linkedin.com/in/pavii2625/ GitHub: <https://github.com/Pavithra2625>

Enthusiastic and self-motivated individual with a strong passion for learning and innovation. Currently enhancing skills in Data Structures & Algorithms (DSA) and Full-Stack Development while exploring AI-driven solutions. Adaptable and committed to continuous growth and problem-solving.

EDUCATION

B. Tech Artificial Intelligence and Data Science	2022-26
Anand Institute of Higher Technology	Chennai
CGPA: 9.02	
HSC – Computer Science	2022
St. Mary’s Matriculation Higher Secondary School	Kelambakkam
Score: 83	
SSLC	2020
St. Mary’s Matriculation Higher Secondary School	Kelambakkam
Score: 85	

SKILLS

- Programming Languages: Python, Java
- Frameworks & Tools: Flask, Fast API, GitHub
- Machine Learning, Deep Learning
- Langchain, LLM, RAG, AI-Agent

CERTIFICATIONS

- Python Certification – GUVI, Infosys Springboard
- AI & ML Workshop -GenrcasX, Codework
- HTML & CSS -GUVI

PROJECT

Adaptive AI-Agent based Energy Management for IoT-Enabled Healthcare Monitoring

- Built an IoT healthcare monitoring system for real-time patient tracking.
- Applied Adaptive AI Agents to optimize energy usage and device efficiency.

Plant Disease Data Analysis and Prediction

- Processed and analyzed dataset for identifying plant disease patterns
- Applied preprocessing and built a prediction model for classification

Toxic Tweet Data Analysis and Classification

- Cleaned and preprocessed tweet data for analysis
- Conducted exploratory data analysis and applied classification techniques.

INTERNSHIP

AI & Data Science Intern	2025
Dvein Innovation	Chennai
Gained hands-on experience in Data Science, Machine Learning, and Deep Learning concepts, including data preprocessing, model development, and evaluation using Python, Pandas, and Pandas.	
Machine Learning Intern	2024
Arul Technology	Chennai
Gained hands-on experience in data preprocessing, model training, and evaluation while working on real-time ML tasks such as classification and prediction. Explored algorithms including Linear Regression, Decision Trees, and KNN in practical applications.
